NOTE: Generally, an activity can be considered "a clear expression or representation of the cultural traditions of one particular group" if it is:

(1) A project in which the intent is to communicate the culture or traditions of a particular race. For example, performances by an African dance company would be coded as "Black/African American."

and/or

(2) Projects which are usually understood to be reflective of the culture or traditions of a particular race. For example, Kabuki theatre is performed in many localities, and by many Asian and non-Asian groups. All of these performances would be coded as "Asian" because regardless of who produces the work, the type of theatre itself is widely understood to be an expression of Japanese culture.
